

Thank you for choosing Blue Label Diving.

Now you have booked and locked in your dates for your next diving course, we would like to ask you to read, fill out and sign the documents attached.

As It is on NO one's list of favorite things to do while I am on a holiday, we have added as much paperwork now, so you don't have to do it when you arrive.

We also strongly recommend doing all of your homework before you arrive.

[PADI E-Learning](#) Our Store number 22703

[SSI](#) STORE NUMBER is 766450

To be able to process your diver/instructor application, as good and as fast as we can, we need the following forms filled out as detailed as possible.

Your personal details and every page that needs to be signed by you, including any papers with answers for exams or knowledge reviews need to be dated and named on the top of each page and need to be returned to us before the end of the course.

The liability release forms, assumptions of risk, media release and rental agreement need to be signed and returned on the 1st day of the course. Each course needs a separate Liability Release form from the Agency. Lets say you are doing all 3 levels of the TDI cave courses. This means 3 separate Liability forms.

Knowledge reviews are required by the agency and should be completed before the final course day as such. You are responsible to fill them out and ask questions if any. Again, if you do this all before you arrive, you don't have to worry about and you will be able to focus solely on the diving.

The medical release forms from the agencies need to be filled our properly for legal purposes. Please fill out a full "YES" or "NO" on the medical questions. A "Y", "N" or "X" are not permitted.

BLD Statement of Understanding and Learning Agreement

This statement informs you of hazards, risks and your responsibilities for participating in the technical Diving courses. Your signature will acknowledge that you accept these risks and responsibilities.

- I, _____, understand that as a Technical Diver I should;
1. Maintain good mental and physical health for diving. Refrain from being under the influence of alcohol or drugs when diving. Stay proficient in diving skills, in particular, the skills required for certifications as a _____
 2. Engage only in Diving activities consistent with my training and experience.
 3. Use complete, well-maintained, reliable equipment for which I have appropriate training. If the instructor finds my equipment inappropriate or ill maintained for the type of diving ahead, I agree to rent replacement equipment instead.
 4. Adhere to the team diving concept, but always be prepared to complete any dive without the assistance of a teammate. Although self sufficient, the responsible Technical Diver dives as part of a team and adheres to team diving principles.
 5. Maintain the proper attitude during training in which I agree to:
 - Follow the instructor's directions and the dive plans strictly, and not to separate from the instructor or my dive team
 - Refrain from Technical Diving outside this course until I am fully qualified and certified
 - Accept the risk for this type of diving, and for specific risks unique to each dive environment, and to immediately notify the instructor if this risk becomes intolerable for me
 - Recognize the desirability or carrying diver accident insurance that covers Technical Diving (if available in my local area), and recognize that my instructor me require me to have it
 6. Demonstrate self sufficiency – plan each dive as though it will be necessary to make the dive and handle all emergencies alone.
 7. Demonstrate discipline and an attitude consistent with responsible Technical Diving – I will not cut corners, bend the rules, disregard dive plans, omit safety equipment or exceed the limits of my training.
 8. Obtain an orientation when diving in new environments.
 9. Know, obey and respect local diving laws and regulations including private landowner relations.
 10. Accept the responsibilities for my personal safety, while accepting and acknowledging the risks, and demands Technical Diving imposes.
 11. Stay informed on and dive according to the state of the art in diving, Technical diving, dive rescue, dive equipment and other influences on my safety as a Technical diver.
 12. Accept that Technical diving has many general risks and hazards that either doesn't exist in recreational diving, or aren't as severe, including:
 - NO direct access to the surface in an emergency due to decompression requirements
 - Hypoxia/Hyperoxia resulting from switching to the wrong gas, which can lead do drowning
 - Narcosis, which can lead to poor judgment/bad decisions that can cause an accident
 - DCS (decompression sickness) due to improper gas analysis, missed decompression stops, loss of decompression gas and individual susceptibility. DCS can cause permanent injury or death
 - Omitted procedures due to task loading, which can lead to accidents, DCS, Air embolism, Oxygen toxicity or drowning
 - Drowning or embolism due to BCD failure
 - Extensive equipment requirements with redundant configurations, which can lead to ergonomic complexity, increased risk of error and physical burden
 13. I accept that a significant difference exists between recreational scuba diving and technical scuba diving, and that in technical diving, even if you do everything tight, there is still a higher inherent potential leading to permanent injury or death.

I have read the above statements (on page 3) and have discussed the course standards with my instructor and have had any questions answered to my satisfaction. I understand the importance and purpose of these practices and recognize they are for my own safety and well-being. I understand that failing to adhere to the above statements will put me at risk, and may be grounds for my dismissal from the training course. I acknowledge that the instructor is not permitted to and will not certify me if I don't meet all course performance requirements or if I demonstrate an attitude or behavior incompatible with responsible technical diving practices.
